

## THE PASSING OF MATTHEW

Haiti has been severely hit by the cyclone Matthew during these last 5 days. As foreseen, the winds and the rains became worse on Monday night. In Port-au-Prince, the capital, the winds

were very strong. They carried away roof of houses, and destroyed banana gardens; the rains flooded houses, stores, and gardens.

Tuesday morning, my neighbors and I were surprised to see our

banana trees laid down in the mud.

We have all lost in term of the crops and fruit we have grown this year.

Latemble

y and Beauge, two neighboring villages, houses, stores, and gardens are under the waters. The people living in that area do not know what to do. The National road leading to Dominican Republic has been impracticable. It is important to remind that a large number of

leaders who graduated from our PBS classes and School of Evangelism live and minister in these most touched and vulnerable places.

Matthew left Haiti with a sour taste in the mouth of the people. The damages it caused have harmful consequences on the lives of the people that were precarious already. It has lengthened the list of the problems that parents faced with the school entry.

As a mission that values lives, ICDM is deeply committed to bring reliefs to the victims of the disaster Matthew. Your prayer

and support in this time are more than necessary. Please, pray that those who are needy may find ways to do up their houses, and the hungrier might be fed, and pray above all, with the love we will show, many would become to know Christ as their Savior.
